### **RA/DRA Download – May 16<sup>th</sup>**

There was no Senior Staff meeting today as many of the senior leaders in HQ were participating in a national emergency response drill.

Our Region 10 reorganization took effect this week, we will be working on planning next steps for external communications on our organizational changes as appropriate.

An all staff message will be sent from Dennis today announcing the new Region 10 Mentorship Program.

This week we will have the opportunity meet with and welcome the new Region 10 Special Agent in Charge for CID, Jeanne Proctor.

On Friday Dennis will join the acting Deputy Administrator for an annual discussion with Senator Murkowski on priority EPA issues for the Senator's Office.

Michelle will participate in the Regional Tribal Operations Committee monthly call this week to discuss the move of our Tribal Program to the new Regional Administrator's Division, as well as planning for the March 2017 Tribal Leaders Meeting being planned by the RTOC under an IGAP grant.

We continue to work closely with the Portland Harbor Superfund Site Team towards publishing a proposed cleanup plan for the site by mid-June.

Please encourage all staff to complete their Federal Employee Viewpoint Survey, the agency goal is 75% participation, this week Region 10 is at 48.5%. Thank you!

Michelle L. Pirzadeh

Deputy Regional Administrator

U.S. Environmental Protection Agency, Region 10

Office: (206) 553-1234

Cell: (206) 499-1927
